DETAILED ACTION

Allowable Subject Matter

Claims 21-26 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach a phase assembly with phase units including a plurality of teeth with each tooth having a surface and adjacent tooth surfaces separated by a groove having opposing tooth sides, each having first and second radii of curvature with the first radius having an arc center located below the tooth plane and the second radius having an arc center located above the tooth plane as recited in claim 21.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Birsching discloses teeth separated by a groove having a first and second radius of curvature but does not disclose opposing tooth sides each having a first and second radius of curvature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H Jones whose telephone number is 703-308-0115. The examiner can normally be reached on 8-4:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor Ramirez can be reached on 703-308-1371. The fax phone numbers for the
